October Series

No Guessing Games:

Designing transparent assignments for student success

11:00-12:15 pm October 21(English) & October 22(中文)

Transform your assignments and boost student success with TILT (Transparency in Teaching and Learning). This framework makes learning goals and rubrics clear, reducing uncertainty and boosting success.

AI as your collaborator:

Design enhanced learning experiences

11:00-12:15 pm October 29(English) & October 30(中文)

Using AI as your design collaborator to create enhanced learning experiences. Explore how to leverage AI to generate engaging activities, case studies, and assessments, all while saving valuable time.
