

2026「培力英檢」教師增能研習：AI 輔助學術英語(EAP)教案設計

本研習將從「教師與 AI 共備協作」的觀點，與 EAP 教師一同思考 AI 在教案規劃流程中所扮演的角色與潛力。同時，將聚焦 EAP 課堂中較具挑戰的**差異化任務與形成性評量**，透過實際案例說明如何運用 AI 融入領域主題、調整課堂任務、設計學習鷹架，並規劃評量活動的評分標準與回饋等。此外，研習亦將提供實用的 AI 工具資源，供教師自行參考與應用。

研習目標：

- 熟悉 AI 融入 EAP 教案設計的應用方式。
- 運用 AI 設計差異化學習任務，提升學生學習動機。
- 運用 AI 規劃課室評量與回饋，提升備課成效。

2026 BESTEP Teacher Workshop:

AI-Assisted English for Academic Purposes (EAP) Lesson Design

This workshop explores lesson planning from the perspective of **teacher–AI collaboration**, inviting EAP teachers to consider the roles and potential of AI throughout the lesson design process. Focusing on **differentiated learning tasks** and **formative assessment**, two challenging areas in EAP instruction, the workshop will demonstrate how AI can be used to incorporate discipline-specific topics, adapt classroom tasks to learners' proficiency levels and needs, design appropriate learning scaffolds, and develop assessment criteria and feedback for classroom activities. The workshop will also introduce a selection of practical AI tools and resources for teachers' reference and application in their own teaching contexts.

Workshop objectives:

- Develop familiarity with ways of integrating AI into EAP lesson design.
- Use AI to design differentiated learning tasks that enhance student engagement and motivation.
- Use AI to plan classroom assessment and feedback, making lesson preparation more effective.
