

[Title of Your Submission]

General Requirements

Language: Submissions must be written in English.

Word Count: 300 - 500 words (excluding title and keywords).

Format: Please use the provided Abstract Template. Please remove all the text in gray before submission.

Author Name(s) Affiliation (University/Department)

Corresponding Email Address

Background

(Instruction: Briefly explain the issue, pedagogical challenge, or gap in knowledge that this study addresses.)

Objectives

(Instruction: State the primary goal of your study or the specific learning outcomes you aimed to achieve through your teaching innovation.)

Methods / Implementation

(Instruction: Describe the research design, participants, and data collection methods OR detail the pedagogical strategy, technology, or intervention implemented in the educational setting.)

Results / Impact

(Instruction: Summarize the key findings and data analysis OR describe the observed outcomes, student feedback, and evidence of effectiveness. Qualitative evidence (e.g., student quotes, observation notes) is welcome for practice-based submissions.)

Discussion & Conclusion

(Instruction: Discuss the significance of your findings. How can this work be applied by other educators or institutions? What is the key lesson learned?)

Keywords

(Instruction: List 3-5 keywords separated by commas, e.g., Active Learning, AI in Education, Faculty Development)
