Starting Your Own Lab

26-28 August 2026
Online Course

Deadline to register: 20 July 2026

Introduction to basic concepts and ideas around setting up your first lab. Some topics deal with technicalities, for example, how to allocate resources effectively, other topics focus on managing people in the sense of how you want your lab and your team to be. This interactive workshop gets you to practice what you learn already during the course.
